You have a new entry in your guestbook:

You fucking lizard eaters, camel fucker-jockeys, shut the fuck up.

Mother fuckers; is this the way of showing your appreciations for living in our country, and getting our help, and now you are claiming one of our provinces? You had it this time motherfuckers. Before visiting your website, I was against those who were racist towards Arabs, but from now on I know how to treat you lizard eater-assholes

Now is time to send you fucking Arab morons, back to fucking Arabian Desert. You came to our country with a sword in your hand, and you will go back with one sword in your fucking arse.
